## Futurecom Systems Group Inc. Celebrates 20<sup>th</sup> Anniversary

**Toronto, July 11, 2011:** Futurecom Systems Group Inc. today celebrated its 20th anniversary.

Since its founding on July 11, 1991, Futurecom Systems Group Inc. has delivered a full complement of RF coverage extension products and services to meet the growing demand for public safety radio coverage enhancement.

For the last 20 years, Futurecom Systems Group Inc. number one priority has been to protect public safety users. The dedicated team of employees at Futurecom will continue this tradition and will ensure that public safety radio coverage needs are being met.

Headquartered in Concord, ON, Futurecom Systems Group Inc. is a leader in the design and manufacture of RF coverage extension products for public safety customers. For over two decades, Futurecom has been meeting the most demanding coverage needs for the public safety market. Futurecom's industry leading vehicular repeaters as well as wide/local area radio coverage extension products allow public safety users to have reliable and dependable radio communications. Futurecom's customers include major radio equipment OEMs, public safety users, utilities, integrators and two-way radio dealers.
