

Ordering Guide

DVR-LX[®]

Revision 3.1

August 2023

Important Notes

1. Only the frequency plans shown in this ordering guide are available as standard configurations. For custom filtering, please contact Futurecom at Futurecom.Sales@motorolasolutions.com.
2. **DVR-LX**® Frequencies must be specified when placing an order since the filters are custom tuned and cannot be re-tuned in the field.
3. Standard **DVR-LX**® delivery time is 10-12 weeks after receipt of a purchase order and a valid frequency plan. Frequency information must be accurate and in accordance with the frequency plan requirements described in this document in order to avoid delays.
4. **DVR-LX**® models include standard 3 ft control cable (**DVR-LX**® to Mobile Radio). Custom cable lengths are available in 5 ft, 10 ft, 15 ft, 20 ft and 25 ft (MAX). Custom cable length must be specified on the purchase order to Futurecom.
5. The Motorola Mobile radios and accessories are NOT included with the **DVR-LX**®.
6. The Motorola Mobile radio can operate with up to two control heads while interfaced to a **DVR-LX**® (vehicle mount **DVR-LX**® model only).
7. High power VHF mobile radios (M25KTS9PW1 APX™ 6500) are NOT compatible with any Suitcase or Rack Mount **DVR-LX**® models.
8. In all In-Band DVRS configurations, the MSU Transmit power must not exceed 50 Watts on DVRS Enabled MSU Modes due to the in-band filters power rating. The in-band filters connected to the MSU have typical insertion loss of 1.5dB
9. The Motorola Mobile Radios may require firmware upgrades in order to operate with the **DVR-LX**®. Motorola Radio Firmware Upgrades are to be purchased directly from Motorola. Please note, to ensure full compatibility and make use of the latest available feature set, it is recommended that the **APX**™ Mobile Radio and **DVR-LX**® Firmware are updated to the latest Motorola certified firmware versions.
10. **APX**™ Mobile Radios operating as the host mobile for the **DVR-LX**® require subscriber option **GA00631** for operation. **APX**™ Portable Radios operating through a **DVR-LX**®, utilizing the digital enhanced **DVR** TRUNKING feature set require subscriber option **QA00631**.

Frequency plans that do not meet Futurecom's specified frequency separation are custom orders. Please contact Futurecom to determine if a custom frequency plan is viable and for quotations on viable plans. Futurecom.Sales@motorolasolutions.com

Futurecom, DVR-LX, PDR8000, the Futurecom Logo and the Stylized FC logo are registered trademarks of Futurecom Systems Group, ULC. All other trademarks are the property of their respective owner. © 2020 Futurecom Systems Group, ULC. All rights reserved.

Mobile Radio Type

The DVR-LX® is compatible with the following Motorola Mobile Radios:

- Remote Mount **APX™5500** with any Control Head, single band - Select Option TT05715AA
- Remote Mount **APX™6500** with any Control Head, single band - Select Option TT05715AA
- Remote Mount **APX™8500** with any Control Head, all band - Select Option TT06279AA

(APX™8500 use in UHF/VHF suitcase requires special consideration. Please contact Futurecom.Sales@motorolasolutions.com)

Depending on the isolation available between the APX™8500 mobile and DVR-LX® antennas, one of the following kits may be required.

- Dual Triplexer Kit - Select Option DDN2657A
- Single Triplexer Relay Kit - Select Option DDN2658A
- Dual Triplexer Relay Kit - Select Option DDN2659A
- Relay Kit - Select Option DDN2808A

When the DVR-LX® is Connected to the APX™ 8500, The Motorola option number GA01515 is required at time of order or KT000247A01 as an accessory if ordered after original shipment. This Y cable splits the J2 into J2 and J600(DB25). **Does not support APX8500 SmartConnect** (Sold exclusively through Motorola Solutions, Inc.)

When the DVR-LX® is Connected to the APX™ 8500 using SmartConnect, The Motorola Y CABLE GA01779 is required. Y-Cable supports DVR-LX® and SmartConnect to allow RS232 and USB line to be used concurrently. (Sold exclusively through Motorola Solutions, Inc.)

700MHz In-Band DVR-LX® Models

Frequency plans that do not meet Futurecom's specified frequency separation are custom orders.

Please contact Futurecom to determine if a custom frequency plan is viable and for quotations on viable plans.
